

DILLIN CUSTOM SOLUTION

Container Handling

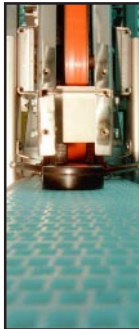

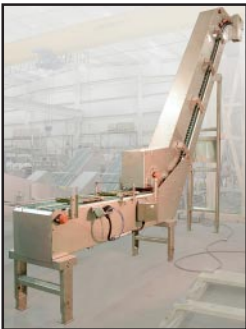

CASE HISTORY # CH-2K

Air Accumulation Table with
AIR DECK® Single Filer

CUSTOMER PROBLEM: Needed to elevate, accumulate, single file and lower product, for presentation to sleeve wrapper.

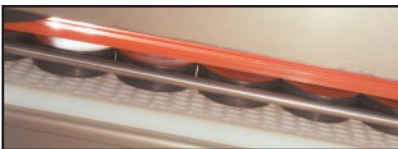

DILLIN SOLUTION: Provided “Twin A” Inclined Belt Lift for elevating product to AIR DECK® Accumulation Table and single filing on AIR DECK® Conveyor. Product was then lowered via Side Grip Metering Belt and gravity chute, discharging onto mat top conveyor feeding sleeve wrapper.

System Capacities:

- Flow rate of up to 650 containers per minute.
- 2,000 - 4,000 containers / up to 6 minutes of production on AIR DECK® ACCUMULATION TABLE.

- Features:**
- AIR DECK® clean-out doors
 - Low noise level
 - Wash-down construction
